APPROVAL OF STATE ENGINEER				
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:				
This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The total combined duty of water under this permit and Permits 35574, 39157, and 42780 shall not exceed 100.0 million gallons annually. The total combined amount of water granted under this permit and Permit 42780 is limited to what the well covered under the two permits is capable of producing. If certificates of appropriation are issued under this permit and Permit 42780, the total combined amount of appropriation granted in said certificates shall not exceed what the well covered under the two permits is capable of producing.				
not to exceed 1.25 cubic feet per second, but not to exceed 100.0				
	illion gallons annually.			
	al construction work shall begin on or before			
Proof of commencement of work shall be filed before				
Work must be prosecuted with reasonable diligence and be completed on or before				
Proof of completion of work shall be filed before				
Application of water to beneficial use shall be made on or before				
Proof of the application of water to beneficial use shall be filed on or before				
Commencement of work filed SEP 1 6 1988 Completion of work filed SEP 1 6 1988 State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 16th day of AUGUST Cultural map filed Certificate No. Issued Abrogated by 62418 1135 (and 8) 3/0
